## POLICIES AND PROCEDURES FOR MDT CLASSES DURING COVID PANDEMIC

Please read and sign to acknowledge your agreement to the protocols we will follow in our attempt to provide a safe environment for classes. Return to MDT along with registration.

1. All students and instructors will wear masks while in the studio.
2. All classes will adhere to social distancing for the duration of the class.
3. Only students will be permitted in the dance studio. Please make arrangements with your dancer for drop off and pick up.

For example: your dancer can go downstairs and wait in front of Oddfellows, or they can wait at a safe social distance in the studio if you wish to call them on their cell phone or tell them you are here.

4. Please come to class already dressed in class attire, as we can only use the restroom one dancer at a time. Please try to minimize personal belongings

5. Personal equipment needed for each class:

\*water bottle (fountain is turned off)

\*personal hand sanitizer

\*a yoga type mat for floor work (There are now brand-new wood floors in the studio.

While we have a cleaner to use on the floor, it is not an official disinfectant. So, if we each use our own mat, this will provide an extra layer of safety.)

6. Upon arrival:

Students will find a chair to place their belongings and wait to be checked in.

Temperature will be checked, then dancer can either wash hands or use their own sanitizer and take their mat to a social distant designated spot on the floor for class.

7. If a dancer is feeling unwell or has any cold or allergy symptoms, please do not attend class.
8. Instructors and assistants will disinfect all usage areas after each class.

I have read and discussed with my child the policies and procedures determined necessary for participation in classes with Modern Dance Technique. We are in agreement and can adhere to all items listed.
